EBSCO

# Research with Primary Sources

EBSCO's magazine archives can be used as primary sources in research. The **valuable perspectives** offered in magazine archives **complement the research** conducted with traditional peer-reviewed journals.

**First-hand accounts of historical and cultural events as witnessed by different populations**

**Photographs, interviews and observations from journalists**

# Replace Physical Archives

One of the many advantages of adding digital magazine archives to your collection is the physical space that is opened up in your library.

**Gain valuable shelf space to store other resources**

**Replace torn, damaged or missing issues**

**Open up library spaces for new areas of studying or meeting**

# Focus on Specific Areas of Study

**Art and Architecture**

**Advertising**

**Business**

**Communication and Journalism**

**Culture/Pop Culture**

**Fashion**

**Gender Studies**

**History**

**Multicultural Studies**

**Political Science**

**Science**

**Sports**

# Access First Issues

EBSCO's magazine archives include the first issue of publication to ensure researchers get the **full scope of historical content**.
